

Regulations for the Registration to the 24FRAME Future Film Fest 2025 Competitions

×

Before submitting your film, please carefully read the following regulations:

The 25th edition of 24 FRAME Future Film Fest will take place from April 9 to 13, 2025, in Bologna.

- Films must have been produced after September 2023.
- By submitting a film, it does not automatically qualify for selection in the 24FRAME Future Film Fest. If selected, the decision will be communicated to the e-mail address provided during registration by February 28, 2025.
- For feature films not in Italian, the 24FRAME Future Film Fest will create Italian subtitles. Therefore, a full screener of the film along with a dialogue list (preferably **in English and in .srt format**) must be provided. Subtitles will not be created for short films.
- If the submitted film is selected, by registering, you authorize the organization to screen the film during the event dates and use it for the creation of promotional materials, along with the materials provided during registration (images, posters, trailers, etc.).
- If selected, you authorize the Festival to include the film in its digital archive and make it available for online streaming (geo-blocked in Italy) on the MyMovies.it platform during the festival period. If you do not wish to allow streaming, please indicate this in the registration form. For any doubts, you can contact us at apply@futurefilmfestival.it.
- After the selection process is completed, the Festival will send a **participation contract** to the directors/producers of feature films, which must be filled out, signed, and returned.

Since 2023, the 24 FRAME Future Film Fest has undertaken a path of sustainability awareness.

Among the awards given, the **Green Future Award** will be presented to works entered in the competition that best reflect environmental issues and the goals of the 2030 Agenda.
